ENGINEERED

Decowood has been a patron of wood since its inception. At Decowood, it's not just about chiselling away blocks of wood for homes, but also the craft and science that goes behind creating these spectacular pieces of art. With a reputation that spans across 100 countries, and over 200 varieties of veneers, Decowood has probably the largest collection to choose from. Each veneer of Decowood infuses the techniques of master craftsmen through centuries along with the touch of technology. And these designs have to be seen to be believed. They not only seep into our mind and heart, but also command an authoritative presence when they are installed.

FROM FORESTS TO YOUR SPACES

RAINBOW

COLORS

WIND

Capturing the vivid hues, the Rainbow Collection accentuates the natural grains of wood. Using dyes that deeply penetrates the veneers, the collection sports aesthetic décor while allowing the veneer to be sanded to achieve the desired finish. Available in varying species, bespoke colours add that melange to your interiors.

GREY MATTER

Grey gracefully stands between the magnetic hues of black and elegant white.

It is a neutral beauty that enhances the pigment of the colour it is paired with.

Grey exudes an understated charm that is extremely rare to find in modern times.

CLASSIC BEIGE

With the warmth of brown and freshness of white, beige radiates peace and positivity. It is perfect for decors that believe beauty lies in simplicity. And it is this minimalism that makes beige a timeless classic.

BLACK MAGIC

An all-time favourite and an all-time classic, black is a colour wrapped in a beautiful mystery. The colour is so powerful and commanding that it is enough in itself. Yet, need be, it can effortlessly match with any other colour, shade, or tint.

VINTAGE BROWN

The earthy tone of dark brown brings with it a promise of warmth and safety. Much like the solid ground, brown (in all its shades) evokes strength and resilience that is comforting to all.
